

COVID-19 Rapid Testing Instructions for Students and Staff
(Updated 1/4/2022)

The Gladewater Independent School District takes the health and safety of our students and staff very seriously. As such, in addition to our current health protocols, we have a voluntary COVID-19 testing program for students and staff at no cost. These rapid tests will be given at our schools by the school nurse.

- Fill out this form to request an appointment:

****Tests are limited. Priority will be given to symptomatic individuals and those with known close contact to a positive individual. Please do not go to your campus with COVID symptoms. Wait in your car and call the nurse when you arrive in the school parking lot at your scheduled appointment time.**

****You must consent to COVID-19 testing prior to setting up your appointment by following the appropriate campus link below. This consent must only be filled out once and not each additional time a test is needed. Parents/guardians are required to consent for minors:**
